

5. In July 1982, Argentina took further action inconsistent with its obligations under the Agreement. Since adequate compensation has not been received for Argentina's breach of the Agreement, I have determined that it is in the best interest of the United States to terminate the Agreement, and it has been terminated by an exchange of notes between the two parties, effective on October 30, 1982. I have further decided that the rate of duty on TSUS item 121.61 shall on that date be restored to the level at which it would have been but for the Agreement.

19 USC 1202.

6. Section 125(f) of the Trade Act of 1974 (the Trade Act) (19 U.S.C. 2135(f)) requires the President to provide the opportunity for interested parties to present views at a public hearing prior to taking action pursuant to Section 125 (b), (c), or (d) of the Trade Act (19 U.S.C. 2135 (b), (c), or (d)). Such an opportunity was provided by holding such a hearing on October 6, 1982, at the Office of the United States Trade Representative (USTR).

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, acting under the authority vested in me by the Constitution and the statutes of the United States, including Sections 125 and 604 of the Trade Act (19 U.S.C. 2135 and 2483), do proclaim that:

USC prec. title 1.

(1) Proclamation 4694 and Proclamation 4876 are terminated, insofar as they relate to the rate of duty for TSUS item 121.61 effective October 30, 1982, and insofar as they relate to TSUS item 107.48 effective October 30, 1983.

93 Stat. 1547,
95 Stat. 1845.

(2) The column 1 rate of duty applicable to item 121.61 of the TSUS is modified to read "5% ad val." effective as to articles entered or withdrawn from warehouse for consumption on and after October 30, 1982.

Pursuant to section 604 of the Trade Act (19 U.S.C. 2483), modifications of TSUS item numbers and article descriptions made by Proclamation 4694 will remain in effect until terminated or modified by subsequent action. Pursuant to section 125(e) of the Trade Act (19 U.S.C. 2135(e)), the current column 1 rate of duty applicable to TSUS item 107.48 will, unless some earlier action is taken with regard thereto, remain in effect until October 30, 1983, at which time it will revert to 7.5% ad valorem.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-ninth day of October, in the year of our Lord nineteen hundred and eighty-two, and of the Independence of the United States of America the two hundred and seventh.

RONALD REAGAN

Proclamation 4994 of November 2, 1982

National Diabetes Month, 1982

*By the President of the United States of America
A Proclamation*

Diabetes is a complex disorder in which the body is unable to convert sugars and starches properly into the energy necessary for daily activity. As a major public health problem, diabetes can result in certain long-term complications that may involve virtually every tissue of the body, particularly the blood vessels, nervous system, kidneys and eyes. At present, there is no cure for this chronic disorder that now affects an estimated 11 million Americans.

In recent years, research has yielded promising new information on the possible causes and improved management of diabetes and its complications. This research has provided significant advances ranging from a better understanding of factors that cause or contribute to the disease to the development of laser therapy for eyes damaged by diabetes. There still exists a great opportunity for medical science to reduce human suffering and improve the lives of diabetic patients.

In cooperation with private voluntary organizations, the Federal government is actively participating in this ongoing scientific challenge. Through the combined efforts of government, university, and private researchers, it is hoped that steady progress will continue to be made toward more effective methods of diabetic control. The goal of this work is to improve the lives of patients and reduce the impact of this disease on our nation.

Ante, p. 1668.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, in accordance with Senate Joint Resolution 257, do hereby proclaim the month of November, 1982, as National Diabetes Month, and I call upon government agencies and the people of the United States to observe this month with appropriate programs, ceremonies, and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this 2nd day of Nov., in the year of our Lord nineteen hundred and eighty-two, and of the Independence of the United States of America the two hundred and seventh.

RONALD REAGAN

Proclamation 4995 of November 2, 1982

National Christmas Seal Month, 1982

By the President of the United States of America

A Proclamation

Chronic diseases of the lung afflict well over 18 million Americans, cause more than 200,000 deaths annually, and cost the Nation more than \$45 billion each year in lost wages, productivity and direct costs of medical care.

Emphysema and related pulmonary diseases have been the fastest rising cause of death in the United States in the past 14 years. Over six million Americans, including two million children, suffer from asthma. It is expected that lung cancer will soon surpass breast cancer as the leading cause of cancer deaths among American women.

Leading the fight to prevent illness, disability and death from lung disease in the voluntary sector is the American Lung Association, a nonprofit health organization supported by individual contributions to Christmas Seals and other donations. Beginning in 1907, Christmas Seals were used to raise funds through private contributions to provide education to Americans with the disease.

Today, the American Lung Association works with the National Institutes of Health to support research, training, and demonstration programs relevant to diseases of the lung. This year, the Association's Christmas Seals will be in 60 million American homes.

Ante, p. 1701.

The Congress, by Senate Joint Resolution 262, has designated the month of November as "National Christmas Seal Month."
